Product Features

CRYSTALYX[®] Iono-lyx[®] B300 gives you all the advantages of a CRYSTALYX[®] supplement program plus the added benefits of BOVATEC[®] - the leading ionophore feed additive for pasture cattle.

BOVATEC[®] is proven to increase weight gain in pasture cattle. In fact, 84 pasture studies conducted between 1980 and 2000 showed that BOVATEC[®] improved average daily gain (ADG) by 9.82% or 0.14 per-head, per-day.

*Individual results may vary.

Bovatec[®] is a registered trademark of Zoetis[®]

Feeding Instructions

CRYSTALYX[®] IONO-LYX[®] supplement is designed for self-feeding to grazing cattle (slaughter, stocker, feeder cattle and dairy and beef replacement heifers). Feed continuously on a free-choice basis.

Place containers in dry spots near loafing areas and watering locations. Feed at the rate of one container for every 10-30 head. A minimum of two (2) containers may be required in each pasture to ensure proper accessibility. Free-choice consumption will depend on size of the animals fed, seasonal weather conditions, as well as quality, source and availability of other feeds. Cattle should consume between 0.4 and 1.3 pounds per head daily to provide 60 to 200 mg lasalocid per head daily.

ALL CONSUMPTION FIGURES STATED HERE ARE APPROXIMATE. PROVIDE FREE ACCESS TO CLEAN, FRESH WATER AT ALL TIMES. CRYSTALYX[®] IONO-LYX[®] SUPPLEMENT CONTAINS NO SALT. PROVIDE SALT FREE CHOICE.

NOTE: CRYSTALYX[®] Brand Supplements deliver a continuous supply of nutrients and are designed as a supplement to the animal's diet. When quantity or quality of other feedstuffs is limited, supplemental nutrients in addition to those provided by CRYSTALYX[®] Brand Supplements may be required. In situations where additional nutrients are needed, contact your feed representative for specific recommendations.

WARNING: This product, which contains added copper, should not be fed to sheep or other species that have a low tolerance to supplemental copper.

A withdrawal period has not been established for this product in pre-ruminating calves to be processed for veal.

CAUTION: Use only as directed. For ruminants only. The use of lasalocid in unapproved species has not been established. Do not allow horses or other equines access to supplements containing lasalocid as ingestion may be fatal. Consumption of selenium should not exceed 3 mg per head daily.

Nutrition Information

Crude Protein, Min	28.0%
Non-Protein Nitrogen (NPN), Max	12.0%
Crude Fat, Min	4.0%
Crude Fiber, Max	2.5%
Calcium, Min	2.0%
Calcium, Max	2.5%
Phosphorus, Min	2.0%

Salt, Min	None Added
Magnesium, Min	2.0%
Potassium, Min	2.5%
Sulfur, Min	0.9%
Cobalt, Min	3.3 ppm
Copper, Min	330 ppm
Iodine, Min	17 ppm
Manganese, Min	1,330 ppm
Selenium, Min	5 ppm
Zinc, Min	1,000 ppm
Vitamin A, Min	80,000 IU/lb
Vitamin D-3, Min	8,000 IU/lb
Vitamin E, Min	100 IU/lb

Product Ingredients

Beet molasses, hydrolyzed feather meal, monocalcium phosphate, dicalcium phosphate, urea, magnesium oxide, hydrolyzed vegetable oil, processed grain by-products, plant protein products, calcium carbonate, sulfur, manganese sulfate, zinc sulfate, copper sulfate, copper chloride, ethylenediamine dihydroiodide, calcium iodate, cobalt carbonate, sodium selenite, vitamin A acetate, vitamin D-3 supplement, vitamin E supplement.

Active Drug Ingredient(s):

Lasalocid..... 300 g/ton

Purpose Statement:

For increased rate of weight gain in pasture cattle (slaughter, stocker, feeder cattle and dairy and beef replacement heifers).
