DAILY INTAKE VALUES ARE APPROXIMATE. To increase consumption decrease the number of animals per bucket. To reduce consumption increase the number of animals per bucket, or place buckets away from the normal loafing area.

Provide clean, fresh water at all times, plus a free-choice salt.

To feed, remove the lid and plastic cover before feeding and score surface several times with a knife to encourage initial consumption.

Do not stack anything on top of this bucket without placing a slip sheet or wooden pallet between the buckets.
