

COUNTRY FEEDS®

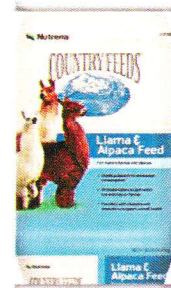

# Country Feeds® Alpaca Life Stages 14/5

This pelleted feed is designed to be fed to breeding, lactating and growing alpacas.

*Recommended by long time alpaca breeder and veterinarian, Dr. Anthony Stachowski!*

**Product Features:**

- Contains organic trace minerals and Pre and Probiotics
- Formulated to meet the nutrient needs of llamas and alpacas
- Ingredients are tested for mycotoxins
- Contains proper levels of organic trace minerals for health and desired condition for all life stages of animals
- Contains prebiotics to boost the immune system
- Proprietary blend of specially proficient rumen bypass fat

**Feeding Directions:**

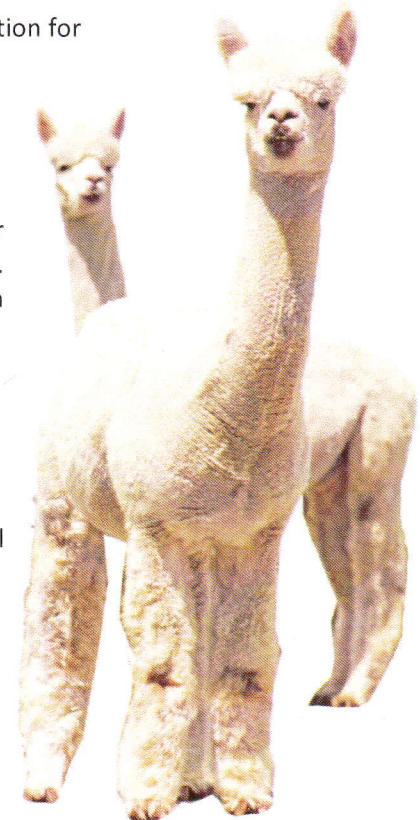

Each alpaca is genetically unique and should be fed to maintain desirable coat/ fiber and skeletal development. This feed is designed to be fed with hay and pasture. Amount of the feed offered depends on alpaca age, trimester of pregnancy, lactation and quality of forage fed free choice.

Growing crias, juveniles and yearlings: ½ pound per 100 pounds body weight.  
Pregnant females: ½ pound per 100 pounds body weight.  
Lactating females: ½ pound per 100 pounds per body weight.

Always provide alpaca with plenty of fresh clean water and no other trace mineral supplement or source should be made available while this product is being used.
